

College of Electronic Technology

The Final Exam of English III

Third Semester (Spring 2019 A)

Name Group Number

Q1. Fill each space with a suitable word: (There are extra words)

parameters computer configure network
cables name digital format phone

A modem router is a device that connects your computer or home LAN to the Internet. To install a wired modem router plug one end of the cord directly into a phone jack, and the other end into the ADSL port on the router. Plug one end of the Ethernet cable into your computer's port and the other end into an Ethernet port on the router. Turn on your computer. To set up, or the router you need to input some, for example your ISP's and phone number.

(10 marks)
